Indian Reservations

In Utah to be Thrown Open to Settlers.

Revolutionary Plots Thickening in Brazil. Admiral Da Gama in a Critical Condition.

England Will Not Change Her Policy Toward Silver In India.

Doings of the Utah Legislature.

NEW YORK, Feb. 15 .- Silver, 63 7-8; Lead, \$3.10.

SALT LAKE, Feb. 14.-The Mayor Tuesday night appointed James Devine as Chief of the Fire Department, Willard Young as City engineer, A. F. Doremus as Chairman of the Board of Public Works, Charles Wilcken as Water Master and John James as Police Court Clerk.

In the legislature yesterday the Council debated the Capitol work bill, received a long protest against the Dr. Park bill, the landlord lien bill, and passed the memorial for the opening of the Indian Reservation. The House passed the World's Fair appropriation bill, the townsite bill, the bill requiring City officers to hold no other office the volunteer fireman poll tax bill and discussed many matters.

New York, Feb. 14.-A dispatch from Rio Janeiro says that Admiral Da Gama, commander of the rebel fleet, wounded in the neck and arm by bullets during the battle of Armacaron last Friday, is in a critical condition. Every effort is being made to save his life. Advices from Pernambuco say Jose Mariceno, leader of the antagonists, has escaped, to Parahyba, where he is conducting an outbreak. Another dispatch from Rio says Piexoto, suspects the Barbos De Lima, Governor of Pernambuco, is plotting to make the northern states a separate republic, with humself as president, has ordered Castro Peite to arrest the Governor at the first sign of dis-

LONDON, Feb. 14 .- The House of Commons was excited to-day in anticipation of an important movement against the House of Lords. Harcourt, replying to a question by Groschen said there was no intention of reopening the India mints or returning to the minimum rate for council bills. There was also no intention to place a tax on the importation of silver. No change in the present India policy was anticipated.

WASHINGTON, Feb. 14.-The problem of settling the Uintah and Uncompangre Indians of Utah has engaged the attention of the House committee on Indian affairs for plified than by their conduct concerning the fore the Committee by which the Indians | Carlisle. TELEGRAPHIC NOTES.

PARIS, Feb. 9. - Advices from the Soudan state that Col. Bonier and his column were attacked and cut to pieces by natives near Timbuctoo and that Timbuctoo itself is in danger of being taken. The natives, Tauregas armed with lances and knives, made the first attack upon the heading division of the French column. The attack was so desperate and well sustained that the first division was apparedtly cut to pieces. The news of the disaster was brought to the second portion of the column by Captain Nugette, who, badly wounded, managed to escape and the second portion of the column at once retreated to Timbutoo.

CARSON, Nev., Feb, 9 .- About 7 o'clock this evening, when the Virginia & Truckee mail train was a mile out of town, the express car was smashed in and a box containing about \$1,000 to pay the wages of section hands, demanded of Jack Page, Wells, Pargo & Co.'s express messenger, at

the point of a shot gun.

The train moved slowly going out of town and it was evident the robber got aboard when nearing the outskirts, getting between the mail and express cars. When about two miles out of town, the rear door of the express car was suddenly smashed in and a man with a shot gun demanded a tin box of money, which he knew to be in the car.

The robber then took hold of the bell cord and gave the enginner the signal to stop the train. After securing the box, the robber jumped from the train, starting toward

JOHANNESBURG, Africa, Feb. 9.—Advices have been received here that Lobengula, King of the Matabeles, who was driven northward from Buluwayo, his capital, by the forces of the British South Africa Company, is now wandering almost solitary in the bush, having been deserted by nearly all his followers.

CHICAUO, Feb. 9 .- Joseph Gaffney, a wealthy mine owner of Butte, Mont., fell down a stairway this morning and broke his leg. He was taken to the county hospital. PHILADELPHIA, Feb. 8.—The last will and testament of George W. Childs was admitted to probate to-day and letters testamentary granted to the executors, George W. C. Drexel and James W. Paul, Jr. The writing is brief, occupying but one sheet of foolscap paper.

The valuation of the property is rather indefinite, as the petition for probate places the personal and real estate each as exceeding \$100,000. In making disposition of the property everything is devised to the widow absolutely, with testamentary disposition of the estate at her death.

RIO DE JANEIRO, Feb. 8. - Peixoto gave a big reception to United States Minister tention to a case heard at Aston, where Thompson and Rear-Admiral Benham to-day. The general belief is that the rebellion is practically at an end and that in a furniture van in the public street, there is not likely to be any more fighting of A police constable on his rounds heard there is not likely to be any more fighting of importance, as the Presidential election will loud snores. He was not at first able to now take up the attention of both parties.

BALTIMORE, Feb. 8 .- A special dispatch to the Manufacturers' Record says: The contract for building the Southern Pacific Railroad bridge over the Missis-ippi river at | from his hiding place. New Orleans has been awarded to the Phoenixville, Pa., Bridge Company. The coat will be \$5,000,000. The bridge will give the Southern Pacific all rail entrance into New Orleans and form a most important link in railroad connection between Texas and the Southwest and the Gulf States east of the Mississippi river.

ROME, Feb. 8 .-- The "Pullino," a new submarine torpedo vessel, has been given a trial and proved an entire success. With admiral Labrano aboard, the vessel traversed the entire length of the gulf under water.

The Enterprise learns from Gerome Garadelli, whose ranch is about thirty miles east | Scaggs of Louisa came down to see the of Virgins, that a volcano was in active eruption about eight miles north of his ranch a few days ago. Garadelli visited the ocality where the eruption occurred and found the hillslope covered with lava.

State Supt. Orvis Ring will leave this morning for Salt Lake City, from which place he expects to go to Pioche, Nevada, on the Nevada Southern Railroad. The trip is undertaken in order to visit the schools in the southern counties. He expects to be gone about four weeks. - Reno Jour.

The agent of a Chicago syndicate of capitalists has purchased a lot at Yuma, Ariz., on which will be created a three story iron and brick building for bank, store and office purposes. It is to be constructed with all modern improvements and will be ready for occupancy April 1st. Work will begin as soon as the plans arrive from Chicago. There is no bank now within 200 miles of

British ship owners want the British commander at Rio de Janeiro instructed to see that all British vessels are enabled to discharge their cargoes at the wharves without molestation. They spoke in the warmest manner possible of the spirited action of American Rear Admiral Benham, who, they said, set an example to the commanders of foreign nations in freeing the American ships at Rio from the obnoxious restrictions imposed by the insurgents.

The patriotism of the Republicans in Congrees has never been more strikingly exemsome time. Rawlins of Utah has a bill be- sale of \$50,000,000 of bonds by Secretary will be given lands in severalty, eighty acres credit of the Government to taking advantfor each head of a family and forty acres age of the numerous opportunities given chasers and if the payments are all made in gold, \$58,000,000 will be added to the \$65,-000,000 of gold now in the treasury.

Expects to Have Arms Grafted to Him. Theodore Lee, the armless newsdealer, who went east recently with a vague idea that he could get arms grafted on to his stumps, has been heard from. He has been inquiring among specialists regarding his case, and he finds that he may yet secure arms. First, the arms that are to be grafted on to his stumps must be taken from a healthy man or woman. and the hope is held out to Mr. Lee that he may find some person—condemned to be hanged, for instance—who would, for \$1,000 say, to be given to relatives or charity, allow an arm to be amputated for grafting purposes. Mr. Lee has in substance been informed that the splice would have to be made just above the elbow joint.

When Mr. Lee has found a person who will submit to the operation, they will have to be brought together in such a position as to permit of the arms of both, which are to be operated upon, being placed in plaster of paris casts so that they cannot be moved. Then it is proposed to cut the back part of both the arms, also cutting through the bone. The arm that is to be grafted on to Mr. Lee's stump or that portion of it that is cut away at the first operation is to be adjusted and fastened to the stump and allowed to remain until it heals and there is evidence of circulation between the stump and the part that is grafted on. The second operation will be the cutting of the remainder of the inside portion of the arm, together with the artery and the nerve. This operation, it is proposed, however, is not to be undertaken until the surgeons are satisfied that the circulation through the part of the arm already grafted on is sufficient to nourish and support the new forearm

has filed his written opinion in the case

of Yick Wo, unregistered Chinese labor-

A Racking Cough

Cured by Ayer's Cherry Pectoral Mrs. P. D. HALL, 217 Genessee St., Lockport, N. Y., says:

"Over thirty years ago, I remember hearing my father describe the wonder-ful curative effects of Ayer's Cherry Pectoral. During a recent attack of La Grippe, which assumed the form of a catarrh, soreness of the lungs, accompanied by an aggravating cough, I used various remedies and prescriptions. While some of these medicines partially alleviated the coughing during the day, none of them afforded me any relief from that spasmodic action of the lungs which would seize me the moment I attempted to lie down at night. After ten or twelve such nights, I was

Nearly in Despair,

and had about decided to sit up all night in my easy chair, and procure what sleep I could in that way. It then oc-curred to me that I had a bottle of Ayer's Cherry Pectoral. I took a spoonful of this preparation in a little water, and was able to lie down without coughing. In a few moments, I fell asleep, and awoke in the morning greatly refreshed and feeling much better. I took a teaspoonful of the Pectoral every night for a week, then gradually decreased the dose, and in two weeks my cough was cured."
